

Autumn 23-24 Primary Geography Network Meetings

Termly network meetings are aimed at those responsible for leading and managing geography in primary schools. Geography leaders will develop their subject knowledge and an understanding of strong progression and sequencing to support geography curriculum development in their school while gathering inspiring and creative ideas for leading and managing the teaching of outstanding geography.

Additionally, the network ensures co-ordinators have an effective forum to discuss and share approaches to curriculum implementation, assessment, and monitoring and to be informed by current research.

There will be one event each full term: Autumn 2023, Spring 2024 and Summer 2024 which will include arising themes such as developing fieldwork, assessment, curriculum design and supporting students with SEND.

Learning Outcomes:

- Enhancing subject leadership
- Deepening understanding of subject specific pedagogy and knowledge to support curriculum planning, assessment, and delivery
- Sharing action-based research from within the county and key geographical contributors nationally, thus providing a clear context of the national picture in Key Stage 1 and Key Stage 2 geography.
